## EXPERIENCE:

- June-September 2016 Summer Placement at **Oxford Economics** (Global Macro Team)
- Personally conducted in-depth research into debt dynamics in a low-yield environment, using my initiative to identify key cases and existing theory
  - Conceived, built and populated a framework for detailed debt sensitivity analysis
  - Produced research briefing using results from my framework to analyse how key cases are redefining debt sustainability (published Sep. 2016)
  - Trained to use Oxford Economics' industry-leading global macroeconomic model, in addition to Bloomberg, Haver data and advanced MS Excel features
  - Assisted with editorial process for a number of company publications
- June – October 2015 Summer Placement Student at **HM Treasury** (Banking and Credit Team)
- Worked in a team to deliver impact assessment and consultation response for EU Payments Accounts Directive
  - Managed Help to Buy: ISA risk register, including reports to Senior Civil Servants
  - Conducted research into long-term policy strategy for the Payments branch
  - Completed correspondence and Freedom of Information requests across Team
  - End of placement review cited strengths in making effective decisions, analytical ability, changing and improving and rapid understanding of detail
- January – June 2015 Researcher at **OxPolicy** student think-tank
- Conducted primary and secondary research into welfare benefits stigma (March-June) and Gypsy & Traveller education (January-March)
  - Worked as part of a team to produce two full research reports
- July – Sept. 2014 Intern at the **Counter Human Trafficking Bureau**
- Responsible for publicity about key CHTB research
  - Researched, designed and created communications strategy for awareness-raising campaign to reach Roma communities in several local authorities
  - Prepared policy advice to other NGOs during passage of UK modern slavery law
- July – Sept. 2014 Funding Volunteer with **JusB** Youth Charity
- Administered funding database
  - Researched trusts and corporations as sources of funding and prepared application letters, yielding £4,000 of funds with a further potential pipeline
